

I am writing in support of my local K-LOVE radio station, 106.7 FM. I listen to the programming on K-LOVE on a daily basis,

because I am 100% sure that I will never be subjected to any sexually offensive or explicit lyrics or jokes by the commentators. In addition to listening to K-LOVE, I am also a monthly financial supporter, because I would like to make sure the

station is available to myself and others in my community.

The station's motto is "Positive and Encouraging", and the station is just that. K-LOVE is a "safe place" for people with families to turn for encouragement and

excellent, fun contemporary music.

It would be a great disservice to our community to lose our K-LOVE station. Most of my friends listen to K-LOVE on a daily basis, as well as several other community members.

Living in a largely suburban area, I cannot stress the importance of having family-friendly programming, as many radio stations do not offer this.

On the occasions when I have listened to most of the other stations, I've found jokes and song lyrics to be insulting, sexually offensive at times, and also mean spirited.

It is important that listeners that enjoy that type of programming have the chance to hear it, yet many listeners - such as myself -

would like to listen to contemporary music without the worrying about content.

I'm sure I have repeated my self many times over in this mail, but I cannot stress enough hopes that K-LOVE 106.7 is accessible in my community for many years to come.
